

1 IDENTIFICATION OF THE SUBSTANCE / PREPARATION AND THE COMPANY

1.1 IDENTIFICATION OF THE SUBSTANCE OR PREPARATION

Product Name	Unimarc Impregnante Legno
Product Series	312
Product Usage	Odorless Protective Coating For Outdoor/Indoor Use
Color	All

1.2 MANUFACTURER INFORMATION

Company Name	Colorificio San Marco S.P.A.
Address	Via Alta 10 District and Country 30020 Marcon (VE)
Phone Number	041 4569322 – Telephone 041 5950153 – Fax
E-Mail	sicurezza.prodotti@sanmarcogroup.it competent person responsible for the Safety Data Sheet
Product Distribution	San Marco USA

Emergency Telephone

Call 911 if you have a poison emergency.

Call the CDC if swallowed but person is alert 1-800-222-1222

2 HAZARDS IDENTIFICATION

The product does not present health or environmental hazards on account of its chemical, physical, toxicological and ecotoxicological properties.

3 COMPOSITION / INFORMATION ON INGREDIENTS

The product is not classified as hazardous pursuant to directives 67/548/EEC and 1999/45/EC and subsequent amendments and upgrades and does not contain substances classified as being hazardous to human health or the environment pursuant to 67/548/EEC and subsequent amendments.

4 FIRST AID MEASURES

No harm to the staff authorised to use has been reported. However, in case of contact, inhalation or ingestion, the following general measures provided for a first aid shall be taken.

Inhalation	Remove to open air. If respiration is difficult, administer artificial respiration and seek medical advice.
Ingestion	Seek medical attention. Induce vomiting only if indicated by the doctor. Never give anything by mouth to an unconscious person.
Eyes and Skin	Wash with plenty of water; if the irritation persists, seek medical advice.

5 FIRE-FIGHTING MEASURES

General Information Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always

wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

Suitable Extinguishing Media The extinction equipment should be of the conventional kind: carbon dioxide, foam, powder and nebulised water.

Extinguishing Media which Shall Not be Used for Safety Reasons

None in particular.

Hazards Caused by Exposure in the Event of Fire

Do not breathe combustion products (carbon oxide, toxic pyrolysis products, etc).

Special Protective Equipment for Fire-Fighters

Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and dielectric), a depressurised mask with facemask covering the whole of the operator's face or a self-respirator (self-protector) in the event of large quantities of foam.

6 ACCIDENTAL RELEASE MEASURES

Personal Precautions

Eliminate all sources of ignition (cigarettes, flames, sparks, etc.) from the leakage site. If there are no contraindications, spray solid products with water to prevent the formation of dust. Use breathing equipment if fumes or powders are released into the air. Block the leakage if there is no hazard. Do not handle damaged containers or the leaked product before donning appropriate protective gear. For information on risks for the environmental and health, respiratory tract protection, ventilation and personal protection equipment, see the other sections of this sheet.

Environmental Precautions

The product must not penetrate the sewers, surface water, ground water and neighbouring areas.

Methods For Cleaning Up

Use inert absorbent material (sand, vermiculite, diatomeous earth, Kieselguhr, etc.) to soak up leaked product. Collect the majority of the remaining material and deposit it in containers for disposal. If there are no contraindications, use jets of water to eliminate product residues. Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

7 HANDLING AND STORAGE

Make sure that equipment is available for cooling the vessels, to prevent the danger of overpressure and overheating in the event of fire in the vicinity. Refer to the other sections of this data sheet for information relating to health and environmental risks.

8 EXPOSURE CONTROL / PERSONAL PROTECTION.

8.1 EXPOSURE LIMIT VALUES

3.2 EXPOSURE CONTROLS

Follow the good industrial hygiene practices adopting suitable individual protective measures, such as gloves and overall. Do not eat or smoke while handling the product. Wash hands before eating and at the end of the work shift. Periodic health controls are recommended at the discretion of the doctor.

9.1 PHYSICAL AND CHEMICAL PROPERTIES

Colour	Color Palette
Odor	Odorless
State	Liquid
Solubility	Not available
Viscosity	152 cps
Vapour Density	Not available
Evaporation Speed	Not available
Comburent Properties	Not available
Partition Coefficient: N-Octanol/Water	Not available
pH	Not available
Boiling Point	Not available
Flash Point	> 60°C
Explosive Properties	Not available
Vapour Pressure	Not available
Specific Gravity	1,010Kg/l

10.1 STABILITY AND REACTIVITY

The product is stable in normal conditions of use and storage. Due to thermal decomposition or in the event of a fire vapours may be produced potentially dangerous to health.

Propylene Glycol It is hygroscopic, stable at normal conditions; at high temperatures, it tends to oxidize yielding propionaldehyde as well as lactic and acetic acid.

11.1 TOXICOLOGICAL INFORMATION

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled carefully according to good industrial practices. This product may have slight health effects on sensitive people, by inhalation and/or cutaneous absorption and/or contact with eyes and/or ingestion.

1,2-Propanediol oral LD50 (mg/kg) 20800 (RAT) ; dermal LD50 (mg/kg) 20800 (RAT)

12.1 ECOLOGICAL INFORMATION

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

13.1 DISPOSAL CONSIDERATION

Consider the possibility of burning the product in a suitable incenerator.

Acid or basic products must always be neutralized before undergoing any treatment, including biological treatment whenever feasible. If the waste is solid, it can be disposed of in a landfill.

i14 TRANSPORT INFORMATION

This substance is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

i15 REGULATORY INFORMATION

Warning Symbols	None
Hazard Sentences (R)	None
Caution Recommendations (S)	None

Safety data sheet available upon request for professional users.

Danger labeling under directives 67/548/EEC and 1999/45/EC and following amendments and adjustments.

i16 OTHER INFORMATION

Text of -R- phrases quoted in section 3 of the sheet.

R36 Irritating to Eyes
